Lovely Three Bedroom Home

This brick and tile home boasts a design that's perfect for a family. The spacious yet practical floor plan is designed to separate the living quarters from the sleeping quarters, offering three comfortable bedrooms and separate games room and a large family-sized bathroom with separate toilet.

The brand-new kitchen with a dishwasher adjoins the dining area, providing ample space for hosting family and friends. Meanwhile, the cosy living room is perfectly illuminated with natural light that pours in from the large windows.

The fully fenced yard is perfect for your children's all-important play equipment.

You can relax on the quaint front patio and enjoy the peaceful neighbourhood while watching your children ride bikes on the quiet cul-de-sac or just enjoy sipping your morning coffee or an afternoon beverage.
