Sought after location

This fantastic low maintenance free standing 3 bedroom double brick home on a 417m2 parcel of land is a real surprise package.

With large tiled open plan living areas and generous bedrooms with built ins and a huge kitchen this home is much bigger than you would expect.

Outside you have lots of parking space but underneath the home you have an oversized double garage that would allow you to park 2 cars plus trailers and a work shop PLUS you also have the benefit of two large store rooms that would have a myriad of uses..

Located in a lovely quiet cross street in East Richmond only a short walk to Icely Park and East Richmond Train station this has to be one of the best first homes or investments to hit the market in Richmond..
